How can I reduce my subscriptions?

The 6 Week Option

If you're comfortable using the NHS but worry about potentially long waiting times, then the 6 week option could be for you. If treatment is available on the NHS within six weeks from the date it should take place, then you will use the NHS. However, if the wait for treatment is more than six weeks from when it should take place, then you can go private straight away.

Excess options

'Assure', 'Key', 'Ideal' and 'Premier' come with a £100 excess as standard. This means you'll pay the first £100 of eligible claims – once every membership year – for each person covered. To reduce your subscription even further, you can add an excess of £200 or £500.

Frequently asked questions

How long will my cover last?

Your plan will be arranged for 12 months from the start date on your membership certificate.

What do I do if I want to make a claim?

If you need to make a claim simply call our team of Personal Advisers on 0800 454 080.

Full details of how to make a claim are included in the membership handbook which you'll receive when you join.

How often can I claim?

There is no limit to the number of times you can claim for new conditions that arise after you join, as long as it's for treatment covered by your plan and is within your plan entitlements.

Do I have to pay for treatment and then claim the money back?

No, as we normally receive invoices directly from the specialists or hospitals and settle them directly.

How can I be sure that I'm covered before I go ahead with treatment?

Simply call our team of Personal Advisers with the details of your proposed treatment and specialist.

They'll confirm if your treatment is eligible so you can go and have your treatment knowing that you're covered.
